

D.O. No. N-19011(16)/3/2016-e-Panchayat

June 07, 2016

Dear *Sir/Madam,*

This is in continuation of my letter of even number dated May 17, 2016 regarding preparation of participatory Gram Panchayat Development Plan (GPDPs) using modified PlanPlus (*version 2.0*) application.

2. As you are aware, the funds for the FY 2015- 16 under the FFC award have already reached most of the Gram Panchayats (GPs) for undertaking various development activities as per the guidelines issued by the Ministry of Finance (MOF). As indicated in the FFC guidelines, the funds have to be transferred to the GPs within 15 days of receipt by the State government. To facilitate better monitoring of the release of FFC funds to GPs, an online system (MIS) has now been provisioned under the PlanPlus application (<http://planningonline.gov.in/ffcReport.jsp>). The MIS dashboard would act as a one-stop shop, providing FFC centric information on the aforementioned (PlanPlus) page/URL. The data entry can be done in the PlanPlus application at the State level (*using the existing PlanPlus credentials*) with the following information, based on which various reports available on the dashboard would be populated:

- Formula for distribution of basic grant to the GPs
- Formula for distribution of performance grant to the GPs
- Date of receipt of Grant (*basic and performance*)
- Date of release of Grant (*basic and performance*)
- Number of GPs to whom funds were released
- Number of GPs where payment was delayed
- Delay in days (*beyond allowable 15 days*)
- Interest amount released

3. Furthermore, it is understood that while the States are scheduling/undertaking training(s) and/or commencing the data entry on PlanPlus v2.0 application, many GPs are in the process of preparing/have already manually prepared their GPDP. Therefore, in order to assess the stage of planning by the State, a separate GPDP MIS (<http://planningonline.gov.in/ReportData.do?ReportMethod=getGdpdCount>) has also been included in the PlanPlus application. The data entry would be required to be done in the PlanPlus application at the district level (*using the existing PlanPlus credentials*) with the following information, based on which the progress by the State would be aggregated:

- Number of GPs where Gram Sabha meetings for preparation of GPDPs have been held
- Number of GPs where GPDP finalised
- Number of GPs where GPDP approved
- Number of GPs where GPDP implementation commenced

4. The mobile application(s) initially to view the respective dashboards are also under development and would be made available shortly. The entry of all data for the FY 2015- 16 may be completed at the earliest. May I request you to ensure that the data is updated in these applications on a fortnightly basis, which would also be useful for monitoring by the State Government? For any further queries and/or State specific requirements, the following officials may be contacted.

Sr. No.	Name	Designation	Contact No.	Email
1.	Sh. Rajiv Goel	Technical Director, NIC	011- 24305337	rajiv_goel@nic.in
