

<b>Name of Gram Panchayat</b>	<b>Akbarpur</b>
<b>State</b>	<b>Uttar Pradesh</b>
<b>Theme</b>	<b>Health and sanitation and Small-scale industries</b>

Gram Panchayat Akbarpur of Uttar Pradesh has set an example by taking initiatives towards strengthening gram sabha for local level development. GP Akbarbur is not only recognized as an active panchayat in various sectors but has also implemented many environments friendly especially sanitation activities effectively. All the decisions of panchayat development are taken by involving community in governance affairs.

GP Akbarpur belongs to Kadaura block of Jalaun district. Gram Panchayat Akbarpur has a very good social status, people of all religions live together, and agriculture is the main occupation here. Some people also do jobs and business by constructing shops in Gram Panchayat, people were motivated to do their own business, The problem of water coming to people in agriculture by putting government tube wells everywhere, According to geographical location, where the climate remains according to the weather, 4 months of rain, 4 months of summer, 4 months of winter, And the Gram Panchayat inspired people for self-employment, and the people were also trained in modern agriculture.

Lack of awareness in the people hinders social development, for example, when the sanitary pad bank was opened in the gram panchayat, there was protest due to lack of awareness among people. They were then told about the characteristics of sanitary pads. He understood that thing after explaining it many times meanwhile, the time wasted shows that lack of awareness becomes a hindrance in social development. For economic development, poisoning of people and settling there also becomes an obstacle in the development of Gram Panchayat financially. Ignorance of small-scale industries in the people is also a hindrance in the development of Gram Panchayat.

In the village panchayat, due to technical reasons, people do not know about government schemes. Village Panchayat had computer due to lack of all facilities connected to internet to take advantage of the schemes which are online only, you have to apply online, then villagers are often deprived of those schemes. The new technology that comes about agriculture and employment and not taking advantage of the schemes provided by the governments is also a hindrance in the panchayat development.

In the village panchayat, there was often a problem especially for women that there should be some place where they could sit without any hindrance. In view of this problem, the head of Gram Panchayat Akbarpur died. Amit Dwivedi History built a park in Gram Panchayat Akbarpur and Zim items were also put in it so that women, children, men etc. can be alert about their health and can also exercise regularly. And there should be an important place for children to play and women can get a favourable place to sit children This Park was constructed in 2019 and this park was named after Late Atal Bihari Atal Park. Gram Panchayat Akbarpur is responsible for its construction.

Education with primary goals to promote healthy girl child education, self-sufficient playgrounds, self-reliance, water management, construction of roads, etc is placed in the primary goal. Secondary goal is to keep Gram Sabha members aware of the scheme of Gram Panchayat, to provide employment, prevent village migration. It is the duty of the gram pradhan to solve any problem as soon as possible. So that people can also deal with such challenges in future.

Some responsibilities of the Gram Panchayats were supported by the citizens in the village cleanliness campaign and the pond cleaning campaign. And for this a committee was formed which takes care of cleanliness from time to time and the field levelling was cut by the village panchayats. Means were provided for irrigation and the scheme of pension was provided for the elderly, disabled and widows. This also encouraged small scale industries.

For the protection of environment in Gram panchayat Akbarpur, the people of village Panchayat made themselves aware to plant trees. As a result, more than 1000 saplings have been planted by the villagers in Gram Panchayat. Similarly, the village panchayat got the rebuilt of wells in water conservation, after which the feeling of storing water arose in the villagers. Due to which people stopped pretending to wastewater and hair nets were made by Gram Panchayat. And children explained the importance of water.

Many times, Gram Panchayats have to face many problems due to delay with money received for development expenses. Which creates a feeling of uneasiness in people? And there are obstacles in development work also. Akbarpur Panchayat faced communities to remove illegal occupation. After that the illegal occupation was removed with the help of the administration. From this, Gram Panchayat learned that if any such task is to be done in future, then administrative help will be taken first So that no unnecessary protest.

Some of the important function of program panchayat Akbarpur are construction repaired and maintenance of all gram panchayat road. Extension of village sites and regulation of building. Lighting of public roads and public places in built-up areas. Land improvement, Implementation of land reforms, land consolidation and soil conservation.
